SUMMARY

Recent Computer Science graduate with over a year of hands-on experience building and testing web development and Android applications. Possess experience with over 5 programming languages, particularly skilled in Java and familiar with ASP.NET framework for building websites. Looking forward to get experience and build knowledge in software development.

EXPERIENCE

Software Developer ONEBLOC Sdn Bhd

January 2021 - December 2021, Malaysia, Kuala Lumpur

- Designing web-based ASP.Net internet applications linked to firm-wide SQL databases.
- Designed, coded and modified applications by implementing knowledge of VB.Net.
- Conducting beta support and complex release testing for the assigned projects and resolved problems found in the software.
- Conducting software and system testing procedures, release testing, beta support, and bug verification.
- Used Javascript and jQuery for validating the input given to the user interface.
- Designing the development of presentation layers using HTML, CSS, Javascript, and jQuery.

IT Trainee (Internship) ONEBLOC Sdn Bhd

January 2021 - May 2021, Malaysia, Kuala Lumpur

- Worked and assisted on development of multiple web application, and tested software products, and reported test results to my supervisor.
- Collaborated with mt supervisor on creation of a new SQL database by utilizing MySQL server.
- Designed web pages for providing Administrative portal by using ASP.NET, VB and MySQL Database in Order to maintain projects.
- Provided IT support and assistance to my colleagues and my supervisor.

PROJECTS

XOX Mobile Website

ONEBLOC Sdn Bhd • April 2023 - June 2023

- Worked on updating MySQL database and designed few web pages for administrative portal by using ASP.NET Which assigned by supervisor during my internship.

Chong Motor Website

ONEBLOC Sdn Bhd • May 2021 - August 2021

- Worked on updating MySQL database and designed few web pages for administrative portal by using ASP.NET Which assigned by supervisor.

Share99 Website(<https://share99.my/V3/default.aspx>)

ONEBLOC Sdn Bhd • January 2021 - August 2021

- Worked on creation of a new SQL database by utilizing MySQL for Share99.
- Designed web pages for a new administrative portal by utilizing ASP.NET, VB and HTML in order to maintain database.
- Collaborated and assisted with frontend team on designing user interfaces for this project by using Bootstrap4 framework.

Final Year Project: Fire Emergency Reporting System

INTI International University • April 2020 - August 2020

- Developed emergency reporting system for the Fire and Rescue Department in Malaysia, Nilai and this system will be a mobile application platform in android studio using java language and Google Firebase will be used as a Database Management system in order to host the database on the cloud server for efficiency.
- Developed a system to keep tracking of the application and manage user's accounts, as well as view and update user's status, admin of the system will have features such as informing users about any fire incident and keep tracking of users account status.

Human Resources Automation Project for COCA-COLA Malaysia COCA-

COLA Malaysia (University Group Project) • January 2019 - April 2019

- Develop a website that can automate the work of the Human Resources department using PHP language with some HTML elements for designing the website.
- Collaborated with my group mates on creation of a new database by utilizing phpMyAdmin.

EDUCATION

Bachelor in Computer Science (Hons) Software Engineering

Minor in Software Engineering • INTI International University • Malaysia, Nilai • 2021 • 2.89

Bachelor in Computer Science (Hons) Software Engineering

Minor in Software Engineering • Coventry University • Coventry, England • 2021 • 2.89

General Secondary Education Certificate

General Sciences • Thahban Secondary School • Khamis Mushait, Saudi Arabia • 2016• 99.75%

CERTIFICATIONS

IBM2201 - Introduction to Enterprise Resource Planning SAP

University Alliances • 2019

Introduction to Enterprise Resource Planning Using Introduction to Enterprise Resource Planning (SAP)

CCNA Routing and Switching: Introduction to Networks

Cisco Networking Academy • 2019

The course introduces the principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations to provide a foundation for the curriculum.

INTRODUCTION TO BUSINESS ANALYTICS

IBM • 2019

Understand valid and reliable ways to collect, analyze, and visualize data; and utilize data in decision making for their agencies, organizations or clients.

IBM2202 - IT Infrastructure Landscape IBM

• 2018

Simplified architecture drawing, mainly at a logical level, showing the structure and workings of the IT Infrastructure in an organization.

SKILLS

Language: C++, JAVA, Python, SQL

Web development: Javascript, NodeJS, AngularJS, React, PHP, HTML, CSS, VB, Bootstrap4

Database: MySQL, phpMyadmin

Development environment: IntelliJ IDEA, Microsoft Visual studio, Android Studio
